## OCTOBER-NOVEMBER 2006 -- ITRC INTERNET-BASED TRAINING COURSES

Please forward as appropriate to members of the environmental community (regulators, federal agency representatives, responsible parties, consultants, stakeholders, etc.) with interest in the learning more about the appropriate evaluation/implementation of innovative environmental technologies and approaches.

The Interstate Technology & Regulatory Council (ITRC) offers a wide variety of Internet-based training courses on innovative environmental technologies and approaches specific to the areas of site characterization, monitoring and remediation as well as other environmental topics. ITRC is a state-led coalition working together with industry and stakeholders to achieve regulatory acceptance of environmental technologies. ITRC is a program of the Environmental Research Institute of the States (ERIS), a nonprofit corporation operating in support of the Environmental Council of the States (ECOS).
